

SAT Intensive Workshop - Day 9

Tomas Matzner

20 June 2019

Not much to write about today – we just motored through a lot of exams. We didn't really have time to go over answers. You can find answers for the Reading section whose first passage was about a balloonist, the Writing section whose first passage was about the Mexican muralist, and the Math 4 section under Outside-Materials > SAT 20 June Answers.pdf. It also has detailed explanations for why each answer is correct, and why the others are wrong. Tomorrow, we'll try and cover as much of the remaining exams as we can. I'll definitely give you answers to the remaining sections, at least.

1 Homework

You guys got worked pretty hard. No homework, apart from going through the answer key that I provided if you really want to. I won't be checking for it or talking about it ever.
